

Tematica si bibliografia probelor de concurs

POSTUL: PROFESOR UNIVERSITAR Poziția: 1

DEPARTAMENTUL: II MEDICINA DENTARA, Sesiunea decembrie 2021- martie 2022

Disciplinele postului: Chirurgie oro-maxilo-facială AN V, VI, MD, O.R.L.- Chirurgie maxilo-facială - modul Chirurgie maxilo-facială, AN V MG

DOMENIUL: LICENTA, după cum urmează:

Tematica probelor de concurs

1. Examenul clinic in chirurgia oro-maxilo-faciala- examenul cervico-facial
2. Examenul clinic in chirurgia oro-maxilo-faciala- examenul oral
3. Corelatii intre antecedentele medicale ale pacientului si tratamentul chirurgical oro-maxilo-facial
4. Abcese ale cavitatii orale- aspecte clinice si terapeutice
5. Abcese ale lojilor faciale superficiale- aspecte clinice si terapeutice
6. Principii de diagnostic si tratament in procesele infectioase de cauza dentara
7. Trismusul- aspecte clinice si terapeutice
8. Riscul fuzarii mediastinale in abcese faciale
9. Riscul extinderii sinuzitelor maxilare in spatiile inconjurate
10. Fracturile de mandibula- aspecte clinice si terapeutice
11. Fracturile peretelui anterior al sinusului frontal- aspecte clinice si terapeutice
12. Plagile cervico-faciale- aspecte clinice si terapeutice
13. Patologia nazala- aspecte clinice si terapeutice
14. Patologia urechii- aspecte clinice si terapeutice
15. Tumorile chistice ale maxilarelor- aspecte clinice si terapeutice
16. Importanta diagnosticului precoce in tumorile maligne oro-maxilo-faciale
17. Disfunctiile secretorii ale glandelor salivare- aspecte clinice si terapeutice
18. Rolul protezelor faciale in defectele faciale extinse

Exam topics

1. Clinical examination in oro-maxillofacial surgery - cervico-facial examination
2. Clinical examination in oro-maxillofacial surgery - oral examination
3. Correlations between the patient's medical history and the oro-maxillofacial surgical treatment
4. Abscesses of the oral cavity - clinical and therapeutic aspects
5. Abscesses of superficial facial spaces - clinical and therapeutic aspects
6. Principles of diagnosis and treatment in infectious processes of dental cause
7. Trismus - clinical and therapeutic aspects
8. The risk of mediastinal fusion in facial abscesses
9. The risk of extending maxillary sinusitis in the surrounding spaces
10. Fractures of the mandible - clinical and therapeutic aspects
11. Fractures of the anterior wall of the frontal sinus - clinical and therapeutic aspects
12. Cervico-facial wounds - clinical and therapeutic aspects
13. Nasal pathology - clinical and therapeutic aspects
14. Ear pathology - clinical and therapeutic aspects
15. Cystic tumors of the jaws - clinical and therapeutic aspects
16. The importance of early diagnosis in oro-maxillofacial malignant tumors
17. Secretory dysfunctions of the salivary glands - clinical and therapeutic aspects
18. The role of facial prostheses in extended facial defects
