

**Disciplina Nefrologie**  
**Profesor Universitar poziția 46**

**Theme:**

1. Immune mechanisms involved in glomerulopathy pathogenesis. Acute GN
2. RPGN
3. Primary chronic GN
4. Secondary chronic GN
5. Nephrotic syndrome
6. Hypertension in pregnancy
7. Urinary tract infection
8. Benign and malignant nephrosclerosis
9. Renovascular hypertension
10. Acute renal failure, AKIN
11. CRF, Chronic kidney disease
12. Microvascular diseases of the kidney
13. Chronic kidney disease
14. Interstitial nephropathies, tubular nephropathies.

**BIBLIOGRAPHY:**

1. Oxford Textbook of Clinical Nephrology, Ediția 4, - Neil Turner and David Goldsmith, 2016
2. Oxford Handbook of Nephrology and Hypertension (3 ed.)
3. Clinical practice Guidelines in Nephrology- KDIGO-2012; 2013; 2014; 2016
