## OFFER FOR EXCHANGES

We only accept students from universities with which our university has a formal exchange agreement and who have been nominated by their universities.

We offer the following courses taught entirely in foreign languages:

Medicine – English

Medicine – French

Dental Medicine – English

Pharmacy – French

All students are required to have a B2 level of the language of study

Faculty of medicine: <https://www.umft.ro/en/medicine/>

Faculty of dental medicine: <https://www.umft.ro/en/dental-medicine/>

Faculty of pharmacy: <https://www.umft.ro/en/pharmacy/>

Due to the fact that we have a linear curriculum, incoming students CAN choose subjects from 2 different study years as long as this does not result in a timetable overlap

### Clinical rotations

We accept students for clinical rotations in blocks of 4 weeks and depending on the availability of each department. Below you can find the list of departments where we can offer traineeships. Please, note that most departments accept trainees only during certain periods, therefore we cannot sign the traineeship agreement unless we already have the acceptance of the departments.
