

Assist. Prof. Isidora Milosavljevic, MD, PhD
(Kragujevac, Serbia)

Dr. Isidora Milosavljevic is Assistant Professor at the Department of Pharmacy, Faculty of Medical Sciences, University of Kragujevac, Serbia. Dr. Milosavljevic received his MPharma degree in 2011 from the University of Kragujevac and completed his Ph.D. in 2017. She is member of the Laboratory for Cardiovascular Physiology, lead by Professor Jakovljevic and the Serbian Physiological Society since 2015.

The main field of research interest is the influence of the various plant extracts on the oxidative stress control in different animal models. So far, Dr. Milosavljevic has published more than 40 original papers as the lead author or co-author in journals indexed in Science Citation Index list. Dr. Milosavljevic is the leader of the Junior project of the Faculty of Medical Sciences on the topic "Characterization and effects of *Melissa officinalis*, Lamiaceae extract in the model of experimental autoimmune myocarditis in rats". Additionally, one participates in several scientific projects financed by Ministry of Education and Science of the Republic of Serbia and Faculty of Medical Sciences University of Kragujevac.

He took part in the organization, as member of organizing committee, of several international congresses and symposia organized by Serbian Physiological Society under the auspices of the International Academy of Cardiovascular Sciences and International Society of Pathophysiology, such as: 2nd European Section Meeting of the International Academy of Cardiovascular Sciences held in Belgrade (Serbia) in 2015, 3rd Joint Meeting of National Physiological Societies from Slovakia and Serbia "Health Risk, Nutrition and Dietary Supplements: Oxidative Stress And Polyphenols in the Heart of Serbian Wineries", Oplenac, Topola (Serbia) in 2019, 6th Meeting of European Section and 7th Meeting of North American Section of the International Academy of Cardiovascular Sciences held in Vrnjacka Banja (Serbia) in 2019, 8th International Congress of Pathophysiology (satelite symposium) "Oxidative Stress in Health and Disease: From Basic Science to Applied Investigations", Kragujevac, (Serbia) in 2019, 9th International congress of pathophysiology 5th Congress of physiological sciences of Serbia with international participation, Belgrade (Serbia) in 2023.
