

Dr. Norbert Nagy, PhD
(Szeged, Hungary)

Dr. Norbert Nagy was born in Szentes in 1982. He received an MA degree in Biology in 2006 from the University of Szeged, Hungary. Currently, he is a research associate in the Department of Pharmacology and Pharmacotherapy at the University of Szeged. He obtained his PhD degree in 2012 in Theoretical Medicine under supervision of Prof. Dr. András Varró and Prof. Dr. András Tóth. His research interests lie in cellular cardiac electrophysiology and pharmacology, exploring the physiological and pathophysiological roles of the cardiac $\text{Na}^+/\text{Ca}^{2+}$ exchanger, intracellular Ca^{2+} handling, Ca^{2+} dependence of repolarization, and cardiac alternans. In addition to his experimental work, he teaches cardiac electrophysiology to medical students and actively supervises PhD and university students. In 2017 he received an “Excellent Student Supervisor” award from the University of Szeged. In 2022 he served as a secretary of the 8th European Section Meeting of the International Academy of Cardiovascular Sciences. He has published 47 papers and presented 57 abstracts, with a cumulative impact factor of 210.
