

**Prof. Theodora Bejan-Angoulvant, MD, PhD**  
(Tours, France)

Theodora Bejan-Angoulvant is a cardiologist and Professor of Clinical Pharmacology at Tours University Hospital in France (Loire Valley). She's a specialist of drugs evaluation with a special interest in biological drugs. She works in the Department of Clinical Pharmacology that is highly specialized in biologic drugs dosage and pharmacokinetics and pharmacodynamics modeling. She is a senior member of the ISCHEMIA research laboratory in which she is the primary investigator of research projects evaluating drugs effects on the cardiovascular system using systematic reviews and meta-analysis of preclinical and clinical studies. She is also the Vice President of the French Society of Hypertension, and she has an outpatient clinic consultation dedicated to patients with severe hypertension and patients enrolled in clinical trials in the cardiology department. She is an expert of the cardiovascular committee of the French national agency for the security of drugs and health products. She is a member of the Dean Committee in charge of the Financial Resources of the Faculty of Medicine and an elected member of the board of Tours University.
