Communication skills

I pride myself on possessing strong commitment to team environment dynamics, and I enjoy working in team as well as independently. I have good listening skills that I developed during my volunteering experiences. I have no problems on speaking in public or to groups, and I am able to hold lectures and presentations. I found fundamental to communicate good sensations in the team I work with, so that responsibilities can be carried out with happiness.

Organisational / managerial skills

Analytical and problem solving skills are definitely my strong point. I developed these attitudes during my scientific studies, and I keep using them in everyday practice. I am able to multi-task different disposition given. I can lead projects and tasks from the beginning to the end.

Job-related skills

During the years of my Faculty I developed patient care skills; empathy, respectfulness and thoroughness. I enjoy working under pressure. I engage in all the stimulating activities. During the internships I learnt to provide my medical knowledge with an inter-disciplinary approach. I manage to cope with surgeries and medical emergencies. I learn fast new medical skills.

Computer skills

I possess a good command of Microsoft Office, and even better use of Linux Tools. My IT skills include also routine usage of different web browsers ( Safari, Google Chrome, Firefox, Explorer) . I know how to use Interfaces for the elaboration of statistical analysis (SPSS, XLSTAT)

Other skills

My artistic skills comprise photography, music playing (piano, singing and flute) and cooking. I obtained a diploma as Reflexology Therapist and Massage Therapist. I enjoy travelling, confronting with other cultures and learning new activities.
