

Faculty of Medicine

Department IV: Biochemistry and Pharmacology

University Department Sub-Structure of Pharmacology

University Professor, Position 35

Topics

1. Pharmacology: general principles. Routes of administration for drugs. Principles of pharmacotherapy.
2. Pharmacokinetics.
3. Pharmacodynamics. Pharmacotoxicology.
4. Pharmacology of autonomic drugs: cholinergic agents
5. Pharmacology of autonomic drugs: adrenergic agents. Pharmacology of H1 antihistaminics.
6. Pharmacology of the respiratory system.
7. Pharmacology of antihypertensive drugs.
8. Pharmacology of positive inotropic drugs.
9. Pharmacology of antiarrhythmic and antianginal drugs.
10. Pharmacology of antianemic drugs.
11. Pharmacology of antithrombotic and haemostatic drugs.
12. Pharmacology of gastrointestinal drugs I (drugs used in peptic ulcer disease, antiemetic drugs)
13. Pharmacology of gastrointestinal drugs II (Choleretic drugs. Cholagogue drugs. Hepatoprotective drugs. Drugs that dissolve gallbladder stones. Laxatives. Purgatives. Antidiarrhoeal drugs).
14. Pharmacology of water, electrolytes and plasma substitutes.
15. Pharmacology of antimicrobial drugs I (Bactericidal degenerative type).
16. Pharmacology of antimicrobial drugs II (Bactericidal absolute type. Bacteriostatic drugs).
17. Pharmacology of tuberculostatic agents, antiviral drugs, antifungal drugs, antiparasitic agents.
18. Pharmacology of immunosuppressive and anticancer drugs.
19. Pharmacology of opioid and non-opioid analgesics and anti-inflammatory drugs.
20. Pharmacology of local and general anesthetics.
21. Pharmacology of sedative-hypnotic and anxiolytic drugs.
22. Pharmacology of antidepressant and antipsychotic drugs.
23. Pharmacology of drugs used in Parkinson's disease. Pharmacology of antiepileptic drugs.
24. Pharmacology of hormones I (Thyroid and anti-thyroid drugs. Hypothalamic and pituitary agents).
25. Pharmacology of hormones II (Insulin and oral antidiabetic drugs. Adrenocorticosteroids).
26. Pharmacology of hormones III (Oxytocic, tocolytic and sex hormones. Hormonal contraception. Pharmacology of erectile dysfunction. Pharmacology of osteoporosis).
27. Dermatological pharmacology.
28. Pharmacology of vitamins.
