

Faculty of Medicine

Department III: Functional Sciences

University Department Sub-Structure of Physiopathology

University Professor, Position 39

Topics

Lectures

1. Pathophysiology of the inflammatory reaction.
2. Pathophysiology of the abnormal immune response.
3. Pathophysiology of respiratory diseases.
4. Pathophysiology of the cardiovascular system
5. Pathophysiology of calcium, phosphate and magnesium abnormalities:
6. Pathophysiology of major endocrine disorders.
7. Pathophysiology of circulatory shock
8. Pathophysiology of blood disorders
9. Pathophysiology of the gastrointestinal system
10. Pathophysiology of the renal system
11. Pathophysiology of electrolyte and water imbalances
12. Pathophysiology of acid-base imbalances:
13. Pathophysiology of carbohydrate metabolism impairment
14. Pathophysiology of lipoproteins metabolism impairment
15. Pathophysiology of protein metabolism impairment

Practical laboratories

1. Investigation of the inflammatory reaction
2. Investigation of the pathological immune response
3. Investigation of respiratory diseases
4. Investigation of arterial hypertension and peripheral artery disease
5. Pathological ECG
6. Cardiopulmonary exercise testing
7. Evaluation of the body's response to stress.
8. Diagnostic investigation in cardiac failure
9. Investigation of calcium and phosphate metabolism abnormalities
10. Investigation of major endocrine disorders
11. Investigation of blood pathology
12. Investigation of digestive pathology
13. Investigation of renal pathology
14. Investigation of water and electrolyte imbalances
15. Investigation of acid-base disorders
16. Investigation of carbohydrate metabolism abnormalities
17. Investigation of plasma lipid abnormalities
18. Investigation of protein metabolism disorders

Bibliography

1. Muntean DM, Borza C, Noveanu L, Aburel OM, Sturza A, Dănilă MD. Fiziopatologie - Note de curs pentru studenții la medicină I. „Victor Babeș” Timișoara, 2022, E-book disponibil pe site-ul UMFVBT
- 2.. Borza C, Muntean DM, Noveanu L, Aburel OM, Sturza A, Dănilă MD. Fiziopatologie - Note de curs pentru studenții la medicină II. , E-book disponibil pe site-ul UMFVBT
3. Protocoalele lucrărilor practice pentru studenții Facultății de Medicină ed. 2023-2024 în format letric disponibile la sediul disciplinei.
