- The 6th edition of the International Primary Immunodeficiency Congress
17. Congres ESID 2024- 21th biennial meeting 2024, Human inborn Errors of Immunity; an expanding universe, Marseille

Anexe

Subinvestigator in studii clinice (2010-2011):

1. A phase I study (Pierelle Research), with FVIIa administered as prophylactic treatment in patients with persistent high titer inhibitors.
2. A phase IV study, Immunine Profilaxy on severe/moderate severe hemophilia B patients (2010-2011)
3. Recombinant Factor IX BAX 326: A phase I/III Prospective, controlled, Multicenter Study Evaluating Ph Safety, Immunogenecity and Thrombogenicity in Previously Treated Patients with Sever (FIX level <1%) or level <2%) Hemophilia B (2010-on going)
4. Evaluating Efficacy, in Previously Treated Patients with Sever (FIX level <1%) or Moderately Severe (FIX level <2%) Hemophilia B (2010-on going) -a continuation study in those subjects who completed pivotal study 250901-BAX until BAX326 is licesed (2011-on going)
5. Recombinant Factor IX BAX 326: A phase III Prospective, Multicenter Study Evaluating Efficacy in Previously Treated Patients with Sever (FIX level <1%) or Moderately Severe (FIX level <2%) Hemophilia B undergoing Surgical or Other Invasive Procedures (2011-on going)
6. Phase III study aimed at comparison of the efficacy and safety of the study drug (FEIBA) administered as on-demand treatment in patients with hemophilia A or B with persistent high titer inhibitors.
7. A phase II/III randomized, cross-over, open-label trial to demonstrate superiority of prophylaxis over on-demand treatment in previously treated severe hemophilia A patients treated with plasma protein-free recombinant FVIII formula (BAY 81-8973)-LEOPOLD 2 (perioada 2011-2012)
8. A phase III open trial to demonstrate safety and efficacy of prophylaxis and on-demand therapy in children with severe hemophilia B treated with BAY 81-8973 LEOPOLD kids
9. Phase II study pentru evaluarea farmacocineticii, eficacitatii si sigurantei concentratului Kedrion de factor VIII din plasma umana, dublu virus inactivat si nanofiltrat la pacientii diagnosticati cu hemofilia B forma severa (2011-2012)
