Postgraduate training

- 2000 – Course on “Hip Arthroplasty”, led by Prof. Dr. H. Vermeşan
- 2000 – Course on “Knee Arthroscopy”, under the supervision of Prof. Dr. J. Barrett and Prof. Dr. H. Vermeşan. Knee arthroscopy is a modern, minimally invasive technique with diagnostic and therapeutic roles, especially in meniscal pathology.
- 2004 – International Symposium of the Gerhard K ntscher Society, Bucharest, Romania
- 2008 – Musculoskeletal ultrasonography course within the European EUROSON Congress, held in Timi oara.
- 2009 – Training placement at Centre Hospitalier Universitaire Strasbourg, France, under the coordination of Prof. Dr. Gilbert Taglang. The training focused on the treatment of proximal femur and humerus fractures using intramedullary devices, which are currently the standard of care.
- 2010 – Masterclass in Hips – Current Concepts in Orthopaedic Pathology, Maastricht, the Netherlands. Topics included hip dysplasia, hip arthroscopy, minimally invasive approaches in hip arthroplasty, etc.
- 2010 – International Knee Surgery and Arthroscopy Advanced Course, led by Prof. Dr. Radu Prejbeanu, where I served as an instructor. The course highlighted anterior cruciate ligament reconstruction, arguably the best example of arthroscopy-assisted surgery in modern orthopaedic surgery.
- 2011 – International Training for Surgeons Concerning Treatment of Long Bone Fractures – training course in Białystok, Poland, under the coordination of Prof. Dr. Wojciech Marczyński, focusing on minimally invasive treatment of diaphyseal long-bone fractures. Minimally invasive surgery allows small skin incisions, leading to reduced blood loss and a lower risk of infection.
- 2012 – 3rd edition of the International Knee Surgery and Arthroscopy Advanced Course in Timi oara, under the leadership of Prof. Dr. Radu Prejbeanu, where I was a lecturer. Timi oara is the only location in Eastern Europe hosting such an advanced knee arthroscopy surgery course under the auspices of ESSKA. The course included live (real-time) arthroscopic knee surgery, hands-on training on knee models (allowing participants to practise surgical manoeuvres), and theoretical presentations delivered by specialists from Austria, Romania, and Slovenia.
- 2012 – Masterclass in Knees – Current Concepts in Orthopaedic Pathology, Maastricht, the Netherlands. I presented the poster: “Discoid meniscus: Are radiological signs enough for proper diagnosis and treatment?”, which was awarded Best Poster of the conference.
- 2013 – International course Exeter Hip Academy: Level 2, England, at the Princess Elizabeth Orthopaedic Centre, presenting the latest techniques for cementing primary and revision hip prostheses, complex case discussions, workshops, and live surgery.
- 2013 – International Knee Surgery and Arthroscopy Advanced Course, under the auspices of ESSKA (European Society of Sports Traumatology, Knee Surgery & Arthroscopy), led by Prof. Dr. Radu Prejbeanu, held in Timi oara, where I was a lecturer and instructor. The course highlighted anterior cruciate ligament reconstruction, arguably the best example of arthroscopy-assisted surgery in modern orthopaedic surgery.
- 2015 – International Knee Surgery and Arthroscopy Advanced Course, ESSKA, ISAKOS, held in Timi oara, where I was an instructor
