

## **Who are we?**

The League of Pharmacy Students from Timișoara (LSFT) is the representative organization of the students of the Faculty of Pharmacy of the "Victor Babeș" University of Medicine and Pharmacy in Timișoara. Its mission is to support the academic, professional and personal development of pharmacists' student by providing opportunities for engagement, training and representation.

Founded on January 12, 2001, LSFT has become, in its more than 20 years of activity, a landmark of student life in Timisoara, actively contributing both to the consolidation of the academic community and to the civic involvement of young people. Through its projects, campaigns and initiatives, the organization has succeeded in creating a framework in which students can develop harmoniously, discover their passions and become responsible and engaged professionals.

LSFT is not just an organization, but a real family that brings together students from all years of study and gives them a space to express their ideas, build friendships and contribute to real changes in society.

By affiliating with national and local representative structures - ANOSR (National Alliance of Student Organizations from Romania), FASFR (Federation of Pharmacy Students Associations from Romania), FITT (County Foundation for Timiș Youth) and AOST (Alliance of Student Organizations from Timișoara) - LSFT has a strong voice in the Romanian student movement and actively participates in defending the rights and legitimate interests of students, but also in the development of educational, cultural and civic impact projects.

## LSFT campaigns and projects
